

Calculators Allowed in the Exam Room

To protect the security of examinations, NCEES prohibits the use of calculators that have communicating or text-editing capabilities. This guide shows the only models of calculators that are acceptable for use during the April 2005 and October 2005 examinations. No other models of calculators will be allowed at the examination sites.

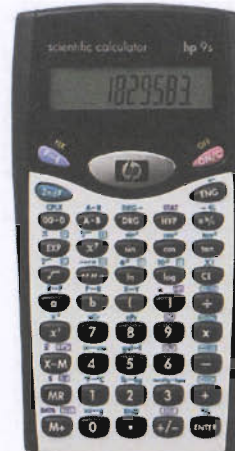

Casio

FX 115 MS and
FX 115 MS Plus
(including SR models)

Hewlett-Packard

HP 9s and HP 33s

Texas Instruments

TI 30X IIS, TI 30X IIB, and TI 36X Solar
